Re: Shop Fitting contractor recommendation.

To whom it may concern,

"The team at P&A Shopfitting have worked with us for many years now and are regarded as one of our key shop fitting contractors. They have a genuine 'can do' approach, and bring a wealth of knowledge and expertise that is really important to us.

The communication of the team is excellent on all projects, the quality of their finished product is first class and they understand the importance of completing each project within the programme and on budget. They have the ability and capacity to deliver quality products on the back of really challenging budgets and time frames - a pleasure to work with!"

I have no hesitation in putting them forward as an ideal partner for your contracts, large or small.

Jerry Sharp
