Testimonial

We have worked extremely closely with P&A Shopfitting on various airside luxury retail projects.

The team have excellent attention to detail and a high quality of craftsmanship. Having worked together on a very demanding project, with a tight programme, we have experienced first-hand their capabilities to excel when working under immense pressure, still managing to deliver the project both on time and on budget.

Their understanding and experience with Heathrow Airport was evident right from the off, and their good relationship with the airport was very useful meaning challenges were easily resolved and delays avoided.

We would highly recommend P&A Shopfitting for their excellent collaborative style and positive approach. The results speak for themselves with an excellent understanding of our vision, resulting in gaining our clients' trust for future projects.
